

**Here's what Lakeside Chautauqua is doing to increase hygiene and infection prevention during COVID-19:**

- Conducting daily employee health checks/taking temperatures prior to each shift
- Emphasizing employees to have good hygiene, wash hands frequently and clean workspaces before, during and after shifts
- Programming will be moved outdoors whenever possible to reduce the likelihood of transmission and to practice safe social distancing
- Plexiglass barriers will separate employees and guests in areas of interaction whenever possible
- Hand sanitizer will be available in public restrooms and in other select locations throughout Lakeside
- Cleaning of shared equipment at shuffleboard, miniature golf, tennis, pickleball and sailing
- Extra cleaning of high-traffic indoor areas: hotel lobbies, Hotel Lakeside porch and Administration Office
- Additional cleaning of children's areas like playgrounds when they are allowed to be open

**Additional notes and precautions:**

- We are not cleaning large public areas like the dock, beach, Pavilion decks and streets.
- We are not cleaning the numerous benches and picnic tables that are placed throughout Lakeside.
- Safety Services and other Lakeside employees cannot constantly enforce COVID-19 recommendations, such as social distancing and wearing of masks. The State of Ohio and Ottawa County are not able to police it, and neither is our security team and Lakeside staff. It will take everyone in Lakeside doing their part and abiding by the rules.
- If you feel you have any symptoms at all, do not leave your cottage until all symptoms are cleared, or return home to quarantine.
- Immediately notify the Ottawa County Health Department at (419) 734-6800 and Lakeside at (419) 798-4461 if you have tested positive for COVID-19 during or after your visit to Lakeside.
