Jack Hanna--“Into the Wild – Live”

Jack D. Hanna, Director Emeritus of the Columbus Zoo and Aquarium, will travel to Lakeside with his favorite zoo friends for a special event at 7 p.m., Sunday, June 18 in Hoover Auditorium.

Hanna’s “Into the Wild – Live” show not only examines the importance of wildlife conservation, but features some of his favorite animal ambassadors to educate and entertain the audience and foster a sense of community.

“I have loved animals since I was a young boy growing up in Tennessee,” said Hanna. “I could never have imagined where my life would take me – and still today I am excited about every day.”

“Peace of My Mind” Art Exhibit

Lakeside Chautauqua will host “A Peace of My Mind,” a multimedia art exhibit that features dialogue about issues related to conflict resolution, civic responsibility and peace, with engaging portraits and compelling personal stories, nearly 100 diverse subjects representing our common experiences and sense of community.

“A Peace of My Mind” expanded into the public forum in 2010 with the production of a traveling exhibit, funded through a grant from the Minnesota State Arts Board. Since then, the exhibit has been displayed at schools, private galleries, community centers, places of worship, and universities across the country.

For more information on the exhibit, and for the schedule of artists and venues, visit the exhibit website at www.peaceofmymindexhibit.com. To create the Master Plan, Lakeside has partnered with MKSK, a urban-planning and landscape design firm based out of Columbus. They have extensive community/campus planning and design experience.

Some of their campuses include the University of Minnesota, Ohio State University, Miami University, and Green State University. MKSK also played a key role in the project at Chautauqua, and the Master Plan will be used as a guide for the future to ensure that we continue to attract top-notch entertainers, preachers and business leaders to the King.

**Join the Lake Erie Inefficiency efforts to protect our Great Lakes**

Lakeside Chautauqua is taking a stand to protect the health of Lake Erie by participating in an international event to raise awareness about the health of the Great Lakes.

In collaboration with the Lake Erie Foundation (LEF), Lakeside Chautauqua will participate in the “All Hands on Deck” event on Sunday, July 3 at the Steele Memorial Bandstand/Gazebo.

The event will begin at the gazebo with a presentation about what you can do to save our Great Lakes, and then individuals will hold hands along the entire shoreline. Brothers Tony & Dan Buettner traveled to study the world’s longest-living communities where people live to age 100 or longer. Their Blue Zones project has received the Nobel Peace Prize for Peace for the Benefit of Mankind.

Blue Zones is a lifestyle approach to health that identifies the practices of the world’s longest-living people, which are the Five Blue Zones, or regions of the world where people live to age 100 or longer. The Five Blue Zones are: Okinawa, Japan; Sardinia, Italy; the Dodecanese Islands of Greece; the Algarve of Portugal; and the Guna Yala of Panama.

The areas chosen for the Blue Zones model of health and longevity were those that had been closely studied and had evidence to support the finding of longer life expectancy. The Blue Zones lifestyle is a combination of research and observation of these communities, and it is based on life-style habits that have been shown to increase longevity and reduce the risk of chronic disease.

In this model, the Five Blue Zones have been identified as places where people live longer, healthier, and happier lives. The Blue Zones lifestyle includes eating a healthy diet, getting regular physical activity, maintaining social connections, and being purposeful. These practices are not only beneficial for physical health, but also for mental well-being.

The 20 need-to-know tips from Lakeside experts

Josh Hilleges
Lakesider

Coming to Lakeside for the first time begins one of two ways. Lakeside from Birth: Some of us have been coming to Lakeside since before we were born! In that case, you'll need to ask your parents or siblings who know their way around. Try Veterans Day Weekend, summers, and the holidays. There's someone to talk to for advice and inside pointers. There's a sense of comfort in having a sort of ‘Lakeside mentor’ who will be there even before you arrive at Lakeside.

The Fish Out of Water: Others are complete strangers to Lakeside. It's been stymied up like a building block, and the feeling is, speaking from experience, comparable to discovering the new world. Newcomers are Marco Polo and Lake Erie is like the ocean blue in 1492. Questions bounce around like mayflies, uncertainties abound as are the 900 cottages on the grounds, and cars are stocked with more stuff than Marilyn's and Marilyn Monroe combined (for those that haven't, that's a lot).

1) Lots of places only take cash – This is important to be aware of for all first timers. Restaurants, ice cream shops and some stores are only able to take cash, so either come in the gates with more than just a card, or know where to find the ATM, which leads right into the next tip.

2) The only ATMs are located in the Fountain Inn entrance & The Patio Restaurant – In the business district along Maple Avenue is the Fountain Inn, one of two hotels on the grounds. It's big and sticks out with its Spanish architecture, and a bike is one of the best ways to get around and enjoy the architecture, and a bike is one of the best ways to get around and enjoy the architecture.

3) Sign up for Rhein Center classes – The Rhein Center is a big, green building on the corner of Walnut Street and Andover Avenue. It offers access to local produce and farmers. Check it out online, or pick up a copy at the Administration Office, Fountain Inn, Hotel Lakeside or any business.

4) Chautauqua Pass fees are more than just the price you pay if you want to take advantage of everything it offers – Lakeside really has a lot to offer. Gather up a group of 10 people who all spent their day at Lakeside, listen to what they did, and they’ll tell you something totally different. It may seem pricey at first, but the opportunities for growth, entertainment and development are a real treat. Find out everything that comes with your Chautauqua Pass at www.lakeshoreoh.com/passes/details.

5) Parking is limited – The Lakeside grounds are old – more than 140 years old. That means the streets here weren’t built for cars, let alone parking lots. Because of this, Lakesiders typically drive their cars to wherever they’re staying, drop off their luggage, and then park their vehicles outside the gates in one of our two parking lots. From there, guests are able to take a short shuttle ride from the Welcome Center to downtown Lakeside. As a side note, most streets are one-way to accommodate for their size.

6) Rent a cottage – There are many ways to enjoy at Lakeside, and renting a cottage is a common way to spend a week, a month or even all summer. Many Lakesiders love the hominess it offers for longer stays, along with the ability to cook meals and spend time with the whole family. Renting a cottage is one way to rent a cottage.

7) Bring an umbrella – This is a great tip. Odds are that cars will have to be left outside the grounds (see tip 5), so a lot of time will be spent walking or biking. Unfortunately, the water sometimes comes from the sky and doesn’t just stay in the lake.

8) Be ready to walk a lot – Like I mentioned earlier, it’s difficult to maneuver a car along the old, narrow streets and avenues of Lakeside, so walking will probably be the most used form of transportation. Don’t forget to wear comfortable shoes and a good water bottle.

9) Bike – Lakeside is packed with places to see, especially for those that love checking out houses or architecture, and a bike is one of the best ways to get around and enjoy the weather at the same time. Bring along a bike or rent one from Sypherd’s Cycles & Rental Center.

10) Change your pace & slow down – Lakeside isn’t meant to be a rush. It’s a place to rejuvenate and where time shouldn’t be a worry – they buzz, but they don’t bite. If it helps, they’re actually an indication that the lake is healthy. The more mayflies we see, the healthier the lake is.

11) Let your kids explore & have freedom – Lakeside is renowned for all the kids that play in its streets and parks. The community is a special place that gives kids the chance to safely explore and play on their own.

12) Talk to strangers – A staple of Lakeside, this is how many lifelong friendships blossom. Don’t be afraid to chat with others. Odds are good that they’ll give you pointers like these.

13) Jump off the dock – A sort of rite of passage at Lakeside, this is one activity even the most timid of us think about, especially for kids like the one who suggested this.

14) Eat Patio donuts – Anyone who’s walked around the business district knows where to find the best donuts – The Patio Restaurant. The smell of freshly-made fried dough fills the air and songs seem to sing neighborhoods. You can get a fresh batch every morning on the corner of Second Street and Walnut Avenue.

15) Go to a Hoover show (and see it in the front row) – Hoover Auditorium hosts all sorts of entertainment acts, from singing to theater to band. Seating for shows is first-come, first-served, so arrive early. For a limited time, there will be general admission seating for a little patience. It’s a rare experience, so take advantage of it while you can.

16) Mayflies don’t bite – These chunky little flies buzz en masse onto our slice of the peninsula and themselves just about anywhere. They’re easy to spot, but no need to worry – they buzz, but they don’t bite. If it helps, they’re actually an indication that the lake is healthy. The more mayflies we see, the healthier the lake is.

17) Go to the Farmers’ Market – Our community is lucky to have access to local produce and farmers every Tuesday and Friday from 9 a.m.-2 p.m., arena farmers set up shop along Walnut Avenue and bring their great tastes with them.

18) Commit to one sunrise and one sunset – Another sort of rite of passage, going to the dock and watching the sun dip over the edge of the earth is extraordinary. This spot is especially unique because it’s one of the places where the sunrise and sunset are visible at Lakeside.

There is a proper protocol if you are considering changes to your cottage. My attempt here is to provide planning on making any changes to the exterior of your cottage. We cannot change the past decisions by the previous boards, but we can only look towards the future.

There are a number of meetings on the website starting this month, including input on the newly launched, interactive website. Visit www.Lakesidemasterplan.com.

The HP&DRB meets on the first Saturday of the month, nine times a year. Once forms and requirements have been completed and submitted, you will be scheduled for a meeting and be given a time date that so we may strongly encourage your attendance and welcome your comments. Once you have been scheduled and you will be issued a COA. The final step is then to consult with the HP&DRB. The HP&DRB will engage the broadest community during this planning process. Through this community engagement, new ideas will emerge, concepts will be tested and critical needs will be identified. This will ensure Lakeside Chautauqua has future programming spaces, recreational facilities, green spaces, open space, evetgation and parking options and the best use of existing buildings.

This year’s Teen Center Leaders, Chelsea Black and Jon Holbrook, are looking forward to not only spending the summer in Lakeside, but also growing the presence of teen Lakesiders in the community. “We hope to get the teens more connected with the community through service,” Black said. “We’ll start with just cleaning up around the lake and then getting more involved with community members who need assistance.”

Both Black and Holbrook were already familiar with Lakeside when they applied for their positions, and they jumped at the chance to spend the summer here. Black is a native of Millersburg and an alumna of the University of Mount Union where she studied psychology and business administration. She attended a youth group event at Lakeside when she was younger and had heard good things from friends who had spent summers working here.

“I was excited to have the chance to reconnect with the community and get experience working with teens before I head to grad school in the fall,” she said. “I want to work with kids and teens in general,” he said. “That’s why I wanted this position, and also why I want to become a teacher.”

Holbrook has been coming to Lakeside with his family for as long as he can remember. “I jumped at the chance to work in Lakeside,” he said. “This is much better than some kind of office job.”

Neither Holbrook nor Black can pinpoint what they are most excited for this summer, but both said that the programming for The Underground has been set for the summer, and they’re sure that teen Lakesiders will enjoy it. They also invite community members who need assistance in any way to contact them at fun@lakesideohio.com for teen volunteer opportunities.

Chelsea: I was excited to have the chance to go on a study abroad trip. I studied Thai cuisine, language, culture and society and spent a few days living with a hill tribe for a field study.

Jon: One time I touched a giant mose in the wild during a camping trip in the Grand Tetons. We were up in the mountains and a mose walked onto our campsite. It was the most thrilling, amazing and terrifying moment of my life.

Chelsea: I wanted to become a teacher. "I have spent summers here. I had heard good things from friends who had been here before."

Jon: I wanted to work in the community. "This is much better than some kind of office job."

Black: I have spent summers here. "I just know I enjoy working with kids and teens in general."

Holbrook: I have spent summers here. "I have heard good things from friends who had been here before."

Meet the Teen Center Leaders

Leslie Digby
Marketing & Graphic Design Manager

This year’s Teen Center Leaders, Chelsea Black and Jon Holbrook, are looking forward to not only spending the summer in Lakeside, but also growing the presence of teen Lakesiders in the community. “We hope to get the teens more connected with the community through service,” Black said. “We’ll start with just cleaning up around the lake and then getting more involved with community members who need assistance.”

Both Black and Holbrook were already familiar with Lakeside when they applied for their positions, and they jumped at the chance to spend the summer here. Black is a native of Millersburg and an alumna of the University of Mount Union where she studied psychology and business administration. She attended a youth group event at Lakeside when she was younger and had heard good things from friends who had spent summers working here.

“I was excited to have the chance to reconnect with the community and get experience working with teens before I head to grad school in the fall,” she said. Black will be attending the University of Akron to study for a master’s degree in speech language pathology.

Holbrook is a Johnstown native who earned a degree in communication from Otterbein University in 2015, also plans to return to school for a teaching license, but he has spent summers working here.

“I just know I enjoy working with kids and teens in general,” he said. “That’s why I wanted this position, and also why I want to become a teacher.”

Holbrook has been coming to Lakeside with his family for as long as he can remember. “I jumped at the chance to work in Lakeside,” he said. “This is much better than some kind of office job.”

Neither Holbrook nor Black can pinpoint what they are most excited for this summer, but both said that the programming for The Underground has been set for the summer, and they’re sure that teen Lakesiders will enjoy it. They also invite community members who need assistance in any way to contact them at fun@lakesideohio.com for teen volunteer opportunities.

Meet the Manager

Dakota Harkins, the new Manager of Operations at Lakeside Heritage Society (LHS), has returned to Lakeside as the new Manager of Operations at the Lakeside Heritage Society (LHS), and she has Indiana roots to thank it.

“I've just always been attracted to history ever since I was younger,” she said. “I probably started with the movies I watched, movies like ‘Indiana Jones.’”

She had anticipated that her history studies would end with her becoming a teacher but fear she learned about different careers and how Lakeside came to be a Chautauqua community. This informal seminar with photos begins on June 21 with Gretchen Curtis as the presenter.

The Rev. Dr. Ned Dewire
Director of Religious Life & Church Events

We each are different from the other. We each approach life differently from the other. Yet, we live in community as Lakeside Chautauqua.

We have 15 Preachers of the Week visiting Lakeside during this summer season, and each of our guests this summer will have a unique story to share. Each has lived a life of faith in different and fascinating ways. We each are different from others.

After preaching on the morning in Hoover Auditorium, the preacher of the week shares their own story of how they are living their faith. Each selects a theme and as we listen, we reflect on our spiritual journey, stretching our souls.

In the summer, Lakeside offers age-related ministries with God Squad and Middle Grade Madness, as well as the Uniquely Lakeside program for college and middle school age students.

On Sunday, Tuesday, and Thursday evenings, Vespers by the Lake is held – Sunday with praise music led by John and Bonnie Wilkie, Tuesday with the Preacher of the Week bringing the message and Joe Livny on keyboard, and Thursday led by Rev. Bob Muchowie as we explore Proverbs in our lives, celebrate Eucharist and have Livny on keyboard.

Michael Shirle, Lakeside’s Coordinator of Worship Music, leads our Chautauqua Choir! There will be a farewell performance last weekend of June, culminating in a concert at 7 p.m. Sunday, June 25 with a special sacred and patriotic program. No Sunday Vesper by the Lake that weekend!

We will hold our first annual Prayer Breakfast, with NBA All-Star Jerry Lucas as the keynote speaker, at 7:30 a.m. Friday, July 28. We will pattern our Prayer Breakfast after the National Prayer Breakfast with various scriptures, short talks and reading scripture or offering prayers.

The Rev. Dr. Karoline M. Lewis, Preacher of the Week Overall Theme: Disciple in the 21st Century.

Organist: Joy Bust

Monday: Disciple as an easy task these days, and one’s identity as a Christian is constantly challenged. Perhaps the hardest part about following Jesus is realizing our identity in the world can make the same kind of difference as the disciples long ago.

What might we learn from the disciples in the Gospel of John that could empower, sustain and nurture our faith? This week’s theme will be filled with the inspiring witness of the persons Jesus encountered in the first Gospel so as to invoke our imagined sense of self as our projected spiritual identity.

Tuesday: Disciple as a Call to Abiding (John 1:21-25).

Wednesday: Disciple as a Call to Witness (John 4).

Thursday: Disciple as a Call to Love (John 14:16-21).

Friday: Disciple as a Call to be I AM in the World (John 10:17-21).

All are welcome to feast on hotdogs, baked beans, macaroni salad, chips, watermelon, lemonade and cookies. Guests should bring their own reusable plates, utensils and a blanket or lawn chair, as picnic table space is limited. There is no charge, but a $4 donation is suggested to offset the cost.

In the event of rain, the picnic is cancelled.

College Station: 7 p.m. (ages 19-25)

Hercules is raised on Earth and retains his god-like strength, but when he discovers his immortal heritage, Zeus tells him that he must become a true hero to return to Mount Olympus.

Hercules becomes a famous hero with the help of his friend Pepuca and his personal trainer, Phil (voiced by Danny DeVito). Hercules battles Hades and the Titans, but it is his self-sacrifice to rescue Meg (voiced by Susan Egan), his lover, which makes him a true hero.

“Hercules” was nominated for a Los Angeles Film Critics Association Award in 1997 and won Best Animation (93 minutes).

John Noltner “A Peace of My Mind”
8:15 p.m., Tuesday, June 20
Hoover Auditorium

Award-winning photographer and author John Noltner drove 40,000 miles across 46 states in three years to ask people the simple question, “What does peace mean to you?” After being frustrated with the growing threat that too often, people focus on what separates us, Noltner used this project to instead ask people to focus on what connects and unites the diverse people of the U.S. The responses he received are the basis behind his multimedia art exhibit, “A Peace of My Mind,” on display in Hoover Auditorium from June 17-24. With portraits and personal stories, ordinary people revealed to him their extraordinary insights about working towards the common good. The stories are also compiled in two books, the original A Peace of My Mind, and his newest book A Peace of My Mind – American Stories. Join Noltner to hear about his journey across the country, the people he met along the way and the discussions about peace that resulted. A book signing will follow the lecture. Several related activities that focus on peace will also be offered throughout the week by the C. Kirk Rhein, Jr. Center for the Living Arts and the Religious Life and Education Departments.

Noltner is a peace activist based in Minneapolis who specializes in engaging people of diverse identity and culture. He received a bachelor’s degree in communication and journalism from the University of Wisconsin-Eau Claire. For more than 20 years, Noltner has traveled far and wide photographing for a variety of clients, including editorial, corporate and advertising. His backdrops have ranged from luxurious boardrooms and spas to prisons in Honduras. His subjects have ranged from a three-meter-long schussor to pediatric transplant patients.

Noltner’s work has been published in multiple national outlets, including National Geographic Traveler, Smithsonian, Forbes and Midwest Living.

“A Peace of My Mind” is made possible in part by state tax dollars allocated by the Ohio Legislature to the Ohio Arts Council (OAC). The OAC is a state agency that funds and supports quality arts experiences to strengthen Ohio communities culturally, educationally, and economically.

American Author: John Steinbeck

American Author: John Steinbeck
10:30 a.m., Monday: American Writer, John Steinbeck with Robert DeMott, PhD
Several decades ago, a small California company, Active Blake Publish-
ing, published the first book of John Steinbeck’s Journals of the Grape-
s of Wrath. The book was an instant bestseller, but it was a book that
summed up not just what has to be known as “Steinbeck country” (the
Northern California area around Salinas and the Monterey Peninsula),
but America itself. Not as an idealized nation-state (though he would occa-
sionally write as if it were), but America as a problematic entity “com-
posed of a profusion of different arabilities that make up the fabric of
book, America and Americans (1964). Steinbeck (1902-1968) is still with
us, more than 40 years after his death, because his work continues to
insist on the need for social justice. This is a book that every student
should read, not just to understand the dynamics of an era, but to
make sense of the larger issues of human suffering and social injustice.
Steinbeck’s works have been translated into more than 30 languages
and are the subject of countless scholarly books and articles. His
work continues to inspire new generations of readers, and his mes-
sage of hope and social justice remains as relevant today as it was when
he wrote it.

10:30 a.m., Tuesday: The Journals of John Steinbeck with Robert DeMott, PhD
Steinbeck was happiest when he was writing, for writing in its most
classic form is a form of self-expression. In his most famous book,
Steinbeck expressed his belief in the power of literature to create an
altered consciousness. This is a book that every student should read,
ot just to understand the dynamics of an era, but to make sense of the
larger issues of human suffering and social injustice. His works have
been translated into more than 30 languages and are the subject of

Forbes and Maclean Living. In 2009, he embarked on a journey to explore the
meaning of peace, one story at a time. This journey led him to produce an exhibit of personal
stories, as well as a book in which ordinary people reveal extraordinary in-
sights into how we work as a species and as a community. The book is
more than just a story; it is a powerful testament to the power of love
and hope. The book and exhibit have traveled around the world, and
are making a difference in people’s lives.

10:30 a.m., Thursday, June 22:
Join author and photographer John Noltner as he leads an in-depth con-
cussion on identity based on stories from his first book, A Peace of My
Mind. Participants will use writing exercises, small group discussions and
large group reflection to address the notion of identity, drawing on issues
of faith, gender, religion, race and political identity. The goal is to
help us reveal and dismantle these stories are all around us… if we choose
and listen.

1:30 p.m., Sunday: Remembering the Fruit Orchards of Catawba Island & the Danbury Peninsula with Lloyd Dayton (Chautauqua Hall)
The Danbury Peninsula and Catawba Island were well known for their fruit orchards throughout the early and middle years of the 20th century. German farmers immigrated to this area to establish peach, pear and apple orchards, with fruit distributed throughout Ohio and even to Detroit, Chicago and New York City. The orchards were cultivated in different soil types and climes from the Lake Erie shoreline to farther inland. Dayt
ton describes himself as “the only person still living in Danbury Township who can remember when fruit growing was a major crop.”

The Mocklers work to preserve Lakeside

Advancement/Communications Intern

Noted as you’re in their cottage on Jas- mine Avenue, Kathy and Craig Mock- lers look out over the scenic view of Lakeside Chautauqua. Before purchasing their cottage, the couple knew nothing about Lakeside Chautauqua, they were only looking for a place to live. A friend, who had been invited to visit Lakeside Chautauqua by the late Robert Beesley, introduced them to Lakeside by Craig’s close friends. After walking the grounds and discovering how unique it was, they decided to purchase their cottage.

Kathy and Craig enjoy Lakeside’s culture, safety, security and religious atmosphere. Their cottage is new home to many family gatherings and a new addition to the family to accommodate their grandchildren.

Lakeside has become their home-away-from-home. One of their favorite things to do is attend the Chautauqua Lec- ture Series. They appreciate how knowl- edgeable the various speakers are, the wide range of topics and how each speaker presents them in a new and unique conversa- tions.

“Kathy and Craig have seen the community improve and grow. They have seen the community make important steps toward bettering the lake and the grounds. They actually have bought two cottages, which is very unusual for our community.”

Craig has seen the community improve and grow. They have seen the community make important steps toward bettering the lake and the grounds. They actually have bought two cottages, which is very unusual for our community.

Fundraising is a two-part process and both the family and the grandfather, who is a Lakeside Chautauqua Board Member, have been involved from the start to preserve Lakeside and take responses from the community.

For questions or comments about the “State of Lakeside” Address, email Lakeside Chautauqua President/CEO Kevin Sibbring at ksibbring@lakesideohio.com for more information.

Volunteer at the Rhein Center

The Rhein Center truly appreciates all of the wonderful people who lend their time throughout the summer. Here are a few ways to get involved this season:

• The lawn chairs in front of the Rhein Center need to be decoratively repainted. A drive is needed Wednesdays & Saturdays to transport the paint cans. Volunteers may set up to prepare a main dish for a Tuesday Luncheon for Instructors. Helpers maintain the garden on the south side of the building. On Sundays during the Registration Open House, volunteers can help staff reset the room for Monday classes at 3 p.m.

• On Saturdays, assistance is needed with the Art in the Park program from 12:30-3:30 p.m. A driver is needed to transport easels to and from Sunday’s Art in the Park on selected weeks. Whether committing to one day, one week or all seasons, if interested, contact rheincenter@lakesideohio.com or (419) 798-4461, ext. 276. Visit www.lakesideohio.org/employment/volunteer to complete a Volunteer Application.

Donations needed for summer

As the busy season summer approaches, the Rhein Center is preparing materials needed for this summer’s classes.

• Many class materials used are pulled from an inventory by donations from the Lakeside community. Here are some specific items that would be useful this summer: clay, fabrics from deli containers, used dye, old button down shirts size Adult M-XXL, craft feathers and crochet hooks (especially size H). Donations of any kind are always appreciated.

The workshops will take place:

• Monday, June 19 1:30-3:30 p.m. at the Rhein Center
• Tuesday, June 20 2-2:30 p.m. at the Rhein Center
• Wednesday, June 21 9-10:30 a.m. at the Rhein Center

Sunday in the Park

The activity changes weekly; example projects may include rock painting, easel art or a simple craft. In the case of inclement weather, the event will be moved indoors to the Pavilion. Participation is $1 per project.

Volunteers may sign up to prepare a main dish for a Tuesday Luncheon for Instructors. Helpers maintain the garden on the south side of the building. On Sundays during the Registration Open House, volunteers can help staff reset the room for Monday classes at 3 p.m.
