Taskforce members included: Mike Bittencourt, Doug Buh, Jeff Chaney, Jeff DePeters, Eric Fado, Dick Hubbard, Tom Jones, Kim Mirabile, Roger Shade, Mike Swallow, Liz Williams, Randy Snow, Bill Drackett, Gretchen Colon, Dan Dudley and Kevin Sibree.

Pickleball

The sport has become a trending gift to the campaign. We would also like to thank the Hubbard family for their transformational financial support, these courts would not have come to fruition. The assistance of the Lakeside Chautauqua Foundation.

Athletic pointers. There’s a sense of community among the students, who all spent their day at Lakeside, listening, talking, knowing the answer to a hidden treasure, and the feeling is even the shiest of us think about.

Lakesiders love the hominess it offers. In the park, you can swim, sunbathe, walk along the lakefront, look at the boats go by, enjoy a light lunch at the Lakeside Club, or take a walk down the streets of Lakeside, which are stocked with more stuff than Marilyn Monroe and Marilyn 2 combined (for those who haven’t been, that’s a lot).

1.) Change your pace & slow down

Lakeside isn’t meant to be a rush. It’s easy to walk and take your time. The streets here weren’t wide for transportation. Don’t forget to wear comfortable shoes.

3. Depending on the time of day, the sun either dips over the edge of the earth is extraordinary. This spot is especially unique because the sun rise on the ground. It’s big and sticks out from the grandeur of this when ice cream runs are imminent. For directions on how to download, visit lakesideohio.com/app.

17.) The only ATMs are in the Foundation Inn entrance & The Patio Restaurant. In the business along Maple Avenue, the Foundation Inn gate, one of two hotels on the grounds. It’s big and sticks out with its Spanish architecture, so be aware of this when ice cream runs are imminent and everyone is running to the store. Stop by the Foundation Inn entrance for directions. For those more familiar with food than finding your way around, there’s one more option to grab a quick lunch or snack.

15.) I am of the Farmers’ Market. Lakesiders need to have access to local produce and farmers. Every Tuesday from 9-11 a.m. farmers set up shop along Walnut Avenue and bring their fresh and tasty with them. So, come with more than just your ATM card and consider their fresh option.

Of the top three Master Plan projects Lakesiders expressed a desire to see, the restoration of the Lakeside Schoolhouse was deemed #1. We heard clearly that it’s time to put that building back into production, repurposed for music education in support of an expanded performing arts program. Many voiced that the Schoolhouse, and the space surrounding the building, is the perfect location for students of all ages to be inspired by world-class artists and teachers to develop their own unique gifts and a higher level of artistic talent and technicality, both artistically and spiritually.

As a result, Lakeside has budgeted money for a formal study of the Schoolhouse this summer. A Request for Proposal (RFP) is being issued and sent to four architectural firms known for their strong focus on historic preservation.Staff will guide the study looking for answers to the following questions:

What can no longer apply band aids.

Lakeside has given new life to Lakeside’s Auditorium, specifically the stage house, which is a vital area supporting Lake- side’s current performing arts programs. The country was entering the Great De- pression when Hoover Auditorium was being constructed, and the stage house was built to be a temporary facility given lack of money to complete it as originally envisioned. The temporary stage house continues to serve the community today. The resources available and standards of our day, as well as the support for the Schoolhouse and Hoover Stage, make sense for us to consider both facili- ties as we plan for the future. We’ve completed the process of issuing an RFP for this project. To grow and enhance Lakeside’s per- forming arts program, a team of industry experts is also being assembled to develop a plan for programming that will work in tandem with the teams reviewing the buildings and infrastructure. This group will begin working on specific program plans centered on performing arts ed- ucation that is innovative and pro- vides avenues for areas of study that are currently not being offered at Lakeside.

Get Involved

We want to gather the community’s insight as we delve further into planning for the Schoolhouse and Hoover Stage House. For this reason, we’re opening both the facilities this summer for behind-the-scenes tours.

Community participation is critical, and we thank you for your part in planning for our future. No RSVP necessary.

Guns, Kids & the Media with Kelly Dillon

51 W. W worth, Orchestra Hall

More U.S. children die by accidental gun deaths than as deaths due to any other cause, including traffic accidents, murders, and deaths due to all forms of violence combined. One factor that can influence a child’s level of exposure is interest in media containing guns.

In this lecture, Kelly Dillon, PhD, will present results from a study involving 104 children in a laboratory setting. The study examined whether re- spondents who saw a movie containing guns would handle a real gun longer and will pull the trigger more times than children who did not see the same movie not containing guns.

Results found children who watched a PG movie with guns were three times more likely to pull the trigger of a real gun and spent more time more time with the gun compared to the control group. Children in the U.S. frequently have access to unsecured firearms and consume media containing guns. The speaker will also present at 1:30 p.m. Monday, July 8 and 10:30 a.m. Tuesday, July 9.

Kelly Dillon is an Assistant Professor of Communication at Wittenberg University where she teaches courses in media communication, technology and public speaking. Her research includes examining cyberbullying from a variety of angles.

He has tutored students to score increases of more than five points on the ACT and 200 points on the SAT. Additionally, Dr. Currie has students achieve perfect scores in different sections of the ACT and the old SAT, as well as a perfect overall score on the ACT.

Dr. Currie can help students focus on the sections they need to focus on. Students are not identical, so he tailors the material and instruction to the needs of each individual class.

As a member of the Laurentian University Women’s Basketball Team, she won two Canadian Interuniversity Sport (CIS) titles and five Ontario University Athletics (OUA) championships. She goes into great detail about her experience and her journey through rehabilitation in her autobiography, Unbreakable.

Stewart miraculously woke up after her last rites were read. She took that as a sign that she should give back in any way possible. She’s now a motivational speaker who speaks together her faith community and athletic community with her incredible story.

Celebrating 20 years of the Rhein Center

In 1999, family and friends came together to honor the memory of Kirk Rhein, a local builder and founder of Lakeside, Ohio. He was the driving force behind the creation of Lakeside, a small community nestled in the hills of northeastern Ohio. The Rhein Center, named in his honor, opened its doors that summer with the goal of fostering the arts in the area. Today, the Rhein Center continues to serve as a hub for artistic expression, offering a wide range of classes and events throughout the year.

Classes are available for all ages and abilities, including 2-D arts, ceramics, creative crafts, dance, drawing, music, painting, photography, sculpture, and more. Students can choose from a variety of class schedules, including weekly classes, Saturday classes, and more. The center also hosts special events and programming throughout the year, such as the annual Art in the Park festival.

To register for classes, students can visit the Rhein Center’s website or call the admin office. Class fees vary depending on the type of class and the length of the session. Registration begins in late June or early July for the upcoming season.

The Rhein Center is committed to making its programs accessible to all, and offers financial aid to those who qualify. For more information, please visit the center’s website or contact the administration directly.

Lakesiders of all ages are invited to submit photos to the photo contest, which is featured in the 2020 Calendar of Events brochure. The contest is open to Lakesiders of all ages, and the winning photo will be chosen by a panel of judges. The selected photo will be featured in the 2021 Calendar of Events brochure and may appear in future promotions.

The deadline for photo submissions is May 31, 2021. The selected photo will be announced in the June issue of the Lakeside newspaper. For more information, please visit the center’s website or contact the administration directly.

Thank you for your support of the Rhein Center, and we look forward to seeing your creative photos in the upcoming brochure!
